Abdullah Gül University is committed to promoting sustainability through its purchasing practices. This policy establishes guidelines and standards to ensure that all procurement activities prioritize environmentally friendly, socially responsible, and economically viable products and services. This policy applies to all university departments, employees, and suppliers involved in purchasing goods and services on behalf of the university. AGU encourages suppliers to adopt sustainable practices and provide information on their environmental and social performance. AGU emphasizes establishing communication channels with suppliers to promote dialogue, share sustainability expectations, and collaborate on continuous improvement initiatives. By adhering to this sustainable purchasing policy, the university demonstrates its commitment to environmental stewardship, social responsibility, and fiscal prudence while fostering a culture of sustainability among its community and suppliers.
